

Introducing the Elastic Chest Strap from Bodypoint®

Plush Velcro®-compatible
terrycloth lining allows
full length adjustment

Durable stretch material offers
anterior support for the chest
or abdomen in 3" or 4.5" widths
(both approx. 59"/150cm long)

Reinforced thumb loop provides
easy opening and adjustment –
even with limited hand function.

Elastic Chest Strap

THE NEW ELASTIC CHEST STRAP from Bodypoint is a versatile, easily removable anterior trunk support, abdominal support or positioning tool for therapists, users and caregivers. The simple thumb loop Velcro® closure provides easy one-handed opening and adjustment. Available in large and small widths, both sizes are 59" (150cm) long and can be cut to fit. For more information or to purchase, contact Bodypoint Customer Service at (800) 547-5716 or bodypoint.com.
